

PARAMOUNT IS EVERYWHERE YOU ARE

HIGH PERFORMANCE LIGHTING FOR SPECIALIZED ENVIRONMENTS

The partial list below gives a good idea of the many places that Paramount Industries lighting is utilized. For more than 60 years, we've been making extremely rugged luminaires that resist abuse, harmful atmospheres, and even time. Many of the older projects are still online, even if the facility name has changed. In fact, some customers have found it more cost effective to have us retrofit new lighting technology into our high-quality luminaires that have been in place for many years, rather than finding comparable new lighting units.

Choose Paramount's High Performance Lighting for YOUR application!
